

Feedback Form for echo guide – General

Name _____

Level of heart scanning (circle or otherwise mark)

- Complete beginner, haven't done a heart scan in my career
- Dabble and will have a quick peek at the heart if I have to
- Intermediate – I can assess MVD and stage it, I can recognise DCM
- Advanced – I scan hearts regularly, can assess severity of acquired and congenital heart disease, I scan cat hearts and assess pulmonary hypertension.
- Super scanner – I'm scanning heart frequently and do all the fancy things!

What do you think of the presentation of this guide - good, bad, could be improved? What about font size and clarity, spacing, clarity of the diagrams?

What about the acronyms/abbreviations? I use abbreviations to allow more information to fit in this small guide. Is this annoying and prefer to be fully written out? OK to use with the online reference or include an acronym glossary page? No problem with them? _____

Anything you would add to this general level guide? Please bear in mind the target audience and intent of this guide (advanced topics are covered in a separate advanced guide).

Anything you would remove from this general level guide? Perhaps measurements you don't use or don't have consensus, or would be better in an advanced guide?
